presents

Durham County **WORLD AIDS DAY** Commemoration

December 1, 2010

**“Recapturing the Spirit of the
Fight to End AIDS”**

Hayti Heritage Center
804 Old Fayetteville Street
6:30 - 8:30 p.m.

In September 2000, at the United Nations Millennium Summit, world leaders agreed to a set of measurable goals for combating poverty, hunger, disease, illiteracy, environmental degradation, and discrimination against women. These are the **Millennium Development Goals**.

One of these goals is to stop the spread of AIDS around the world by 2015.

Our leaders made this promise. It is now up to them and us to keep it.

At this moment-

-  33 million people around the world are living with HIV
-  1.1 million people in the U.S. are living with HIV
-  24,248 people in N.C. are living with HIV/AIDS (as of 12/31/09)
-  1,710 new HIV cases and 957 new AIDS cases were reported in 2009 in N.C.
-  1,344 people in Durham are living with HIV/AIDS
-  Durham County ranks # 3 for highest rates for HIV in N.C.
-  20% of them don't know their status
-  Half of them are under the age of 25
-  Early diagnosis and treatment means people with HIV can live healthy, active lives.

**WHAT ARE YOU DOING TO
END THE FIGHT?**

Program

Cornell Wright, Master of Ceremony
