

**Partnership for a Healthy Durham
Health and Housing (H&H) Committee Meeting Zoom
Tuesday, April 16, 2024**

Present: Don Bradley, Savannah		
Topic	Major Discussion	Recommendations and Action Steps
Welcome/ Introductions <i>Charlene Reiss</i> 8:30-8:40	Lightning round: Your name, your affiliation, and what's one that where you live supports your health and wellbeing? 1-2 words only, please!	
Co-Chair Recruitment	The Health & Housing Committee needs new Co-Chairs for the 2024-25 year, beginning July 1. Please nominate yourself or someone else for these important positions.	
Community Health Improvement Plan – process overview <i>Bria Miller, Partnership Coordinator</i>	<p>In May, June, and July we will be developing our new Community Health Improvement Plan for the Committee.</p> <p>Bria reintroduced the Partnership for a Healthy Durham values and mission, structure, and racial equity principles. She shared a list of committees and co-chairs. She then went over what the CHIPs are and what process will look like, as well as a timeline. CHIPs are long-term systemic efforts to address the top five health priorities based on the Community Health Assessment (CHA) data and determine the Partnership's work over 2025-2027. Committees will use Results Based Accountability (RBA) principles, align with Healthy North Carolina 2030, and be guided through the racial equity principles. Each committee will aim for two to three strategies to prioritize efforts.</p> <p>Savannah Carrico presented data relevant to Health and Housing's work from the recent CHA. The Partnership, Durham County Department of Public Health, and Duke Health conducted the county-wide CHA survey, as well as the Comunidad Latina CHA survey. Specific data can be found at the Partnership's webpage: https://healthydurham.org/health-data. Her presentation slides are attached to the meeting minutes.</p> <p>James Davis asked if there were any committees or Partnership folks focused on developing the workforce. Poverty was a top health priority in the previous CHIPs cycle but it was not this time. Bria said that each committee tries to use a poverty lens on priorities, keeping in mind that poverty and income have an impact on health outcomes. Kimberly Monroe (Duke Office of Community Health) said that many years ago, they had been working with HSAC (Homeless Services Advisory Committee) on workforce development and looking at 'access' broadly; beyond just care or health insurance. She thinks it would be a good idea to get folks from workforce development involved again.</p> <p>Bria introduced a Jamboard link https://jamboard.google.com/d/1SxzVdQSWuGe2OAcYulu_L78IJLkZRtIy</p>

	<p>zcqbgAqNFr4/viewer?f=0), for members to take a look at the previous CHIPs cycle (2022-2024) and, for each strategy, identify 1) what worked 2) what did not work and 3) any gaps or things that kept the group from achieving those goals. Charlene Reiss is hoping that the roundtables being held will provide a lot of context and rich information to help with this, as well as the report from the student group from Duke who was interviewing people working in agencies we have identified to work with.</p> <p>James Davis suggested a group get together to work on the Jamboard collaboratively. Charlene suggested waiting to see how the next week's roundtable goes and then decide if more work needs to be done.</p>	<p>Charlene will send out an email with a poll to determine a time to meet separately to go over the Jamboard work.</p>
<p>Health & Housing Round-table Discussions Planning <i>Charlene Harris 8:40-9:25</i></p>	<p>Round table discussions on Housing and Health Recap from Wednesday, March 20th</p> <p>Preview of Wednesday, April 24 10:00 AM - 12:00 PM at Aging Well Durham</p> <p>Topic: What do we as a community need to do to ensure that all residents of Durham have housing that supports their health and well-being? How do we create a more livable, LOVABLE Durham?</p> <p>Volunteers needed as note takers, time keepers</p> <p>List of Durham Organizations Engaged in Health and/or Housing Work</p>	
<p>Updates</p>	<p>Please add your updates to the chat!</p>	
<p>Next Meeting: May 16, 2024 at 8:30 AM</p>

Comparable to previous years
205 total surveys
Weighted

2023 Comunidad Latina CHA
survey
176 surveys collected
Unweighted
New methodology –
convenience sample
**Not comparable to previous
years or the 2022 County-
wide survey**

Survey Purpose, Methods, Data Collection, and Results of the 2023 Durham County County-wide Community Health Assessment

Durham County Department of Public Health (DCoDPH), the Partnership for a Healthy Durham, and Duke Health extends their gratitude to the residents of Durham County for participating in this survey. The data collected in this survey helps provide information to public health leadership to make important decisions about the health and well-being of Durham County residents. The data is also used to apply for grants that government agencies and local organizations can use to enact change in the community. Randomly selecting neighborhoods and meeting people in their homes results in better and more robust data. This opportunity allows community voices to be heard and provide outreach to populations not traditionally reached. This could not be possible without the honest conversations held in the community during this survey experience.

Questions

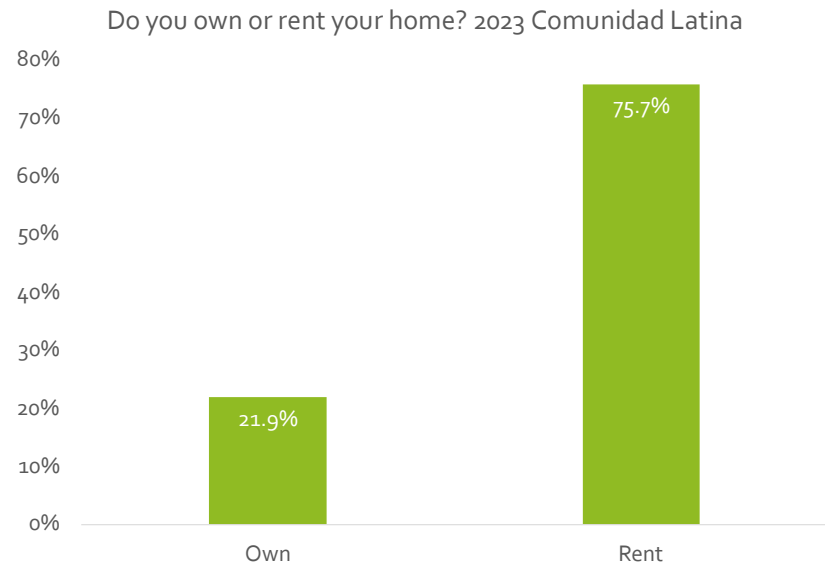

- Do you own or rent your home?
- What difficulties have you had finding housing?
- Have you ever been evicted or displaced?
- How long have you lived in Durham County?
- How does housing impact your health?
- What neighborhood amenities do you have?
- What makes your neighborhood a good place to live?
- What three issues have the greatest impact on quality of life?

Key takeaways

Fewer Comunidad Latina participants reported owning their home than in the County-wide survey.

Not being able to afford a home is a major reason why people can't find housing.

Comunidad Latina participants reported living in Durham for less time than County-wide participants.

Most people report their housing affects them in a good way.

The neighbors were the most common reason given when asked what people, places, or things make your neighborhood a good place to live.

Next Steps

The 2026 Durham County Community Health Assessment is being planned for Spring 2025.

- Will include a County-wide, Comunidad Latina, and Black or African American surveys.
- Surveys will be collected using a mixed method sampling model.
 - Going to local events in the community
 - Going door-to-door
- Survey questions are limited to 5 -6 questions about each health priority.
- Surveys will be finalized in Fall 2024 after feedback from partners and community members are incorporated.
