Interest in having a common platform to share referrals in a safe way. Angel would like to share something on the platform as a user versus the public. The data base is better on the public facing and not the general search once a CBO is in the platform or in the case management – out of network organizations. 	<p>Ask Maddie to help.</p> <p>Susan – will let UniteUs and FHLI know about the difference in the updates</p>
